

## Train, ship and plane

**Don't fall asleep** leaving your bags, shoulder bags and jackets unattended.

**Don't leave** any valuables in your compartment if you go to the toilet or for longer absences.

**If you travel at night**, keep your valuables in not easily accessible places; don't sleep lying on your back, leaving your wallet within the crooks' reach.

**If you travel in a sleeping car**, don't forget to lock your compartment door.

**Beware of improvised sellers** and travel companions who tell you sad stories for the purpose of convincing you to buy something.

**If you travel by ship**, store your valuables in the safe.

**Don't accept** to bring bags or items belonging to unknown travel companions, specially when passing Customs checks.

**If possible**, don't keep your return tickets in the same place.

**Remember that** when travelling you are more relaxed, but also more careless, while crooks lie in wait.
